

# We're Hiring!

## Join the Federal Government in Supporting the *Infrastructure, Investment and Jobs Act*

The Federal government is looking to fill a wide range of positions that will implement the newly enacted *Infrastructure, Investment and Jobs Act*. Agencies need to hire now to fill essential and mission-driven roles: scientists to combat climate change, engineers to repair and rebuild our roads and bridges, and workers to help ensure every community in America has clean water, just to name a few. If you are interested in supporting this government-wide effort, please visit [www.usajobs.gov](http://www.usajobs.gov).

### How do I find Infrastructure Act job opportunities on USAJOBS?

View a list of job opportunities specifically connected to the *Infrastructure, Investment and Jobs Act* by visiting <https://www.usajobs.gov/search?mco=10>. You can also click directly on the banner at the top of the USAJOBS homepage.

You can further refine a job search by using different filters, such as location, grade level, and agency. Create a profile to save your search and receive regular email notifications for jobs in your area of interest.

### How do I apply to a job opportunity on USAJOBS?

To learn more about the application process, go to <https://www.usajobs.gov/Help/faq/application/process/>.

### What are the benefits to working in the Federal government?

Federal employees have access to a range of benefits designed to make your Federal career rewarding. For information about working in government, visit <https://www.usajobs.gov/Help/working-in-government/>.
